Guidance of the temperature inspection implementation

As a countermeasure against new coronavirus infections, we will conduct temperature inspections for those who come to our office for the time being.

If fever symptoms are observed during the temperature test, we will refuse access to the office area.

How to implement

Temperature inspection will be carried out using a non-contact thermometer at the reception.

If you have symptoms of covid-19 (cold symptoms, fever above 37.5 degrees,

Strong tiredness (fatigue), difficulty breathing (dyspnea), etc.,

We will refuse the interview. Sorry to cause an inconvenience, but we ask for your kind cooperation.
